

Platform trailer CS300-DRB/DROP

(EC0025T1)

A multi-functional platform trailer with a strong construction and a smooth bottom. The aluminum borders that open down and can be removed allow the trailer to be used as a platform, for example, or to load goods conveniently and quickly from each side with a forklift.

The trailer is made of hot-dip galvanized sheet metal suitable for Nordic conditions. High-quality and light aluminum side profiles are easy to handle. The wheels are moved under the trailer platform to ensure maximum loading area. Waterproof hubs ensure a longer life for the bearings. The platform is equipped with recessed strap loops to secure the load.

Upgrade your trailer with [accessories](#) for the best user experience.

Tehnilised andmed

Kasti laius (m):	1.85
Kasti pikkus (m):	3
Raam:	Bolted
